2010's coolest new cars!

Genova Motor Show's swiftest ride!

The new Alfa Romeo 4C is a two-seater sports car that's as fast as a cheetah. It's also the smallest car ever made by the Italian manufacturer. The 4C is a mid-engine, rear-wheel-drive sports car that's designed to be a lightweight, agile, and fun-to-drive. It's powered by a 1.8-liter turbocharged engine that produces 175 horsepower and 177 lb-ft of torque. The 4C is also the first Alfa Romeo to feature a manual transmission.

The 4C is a true sports car, with a top speed of 155 mph and a 0-60 time of just 5.8 seconds. It's also the most agile car in the world, with a steering ratio that's 10:1. The 4C is also the most fuel-efficient sports car in the world, with a combined fuel economy of 24 mpg. The 4C is also the most affordable sports car in the world, with a starting price of just \$39,900.

The Evija is a true electric sports car, with a top speed of 155 mph and a 0-60 time of just 3.5 seconds. It's also the most agile electric car in the world, with a steering ratio that's 10:1. The Evija is also the most fuel-efficient electric sports car in the world, with a combined range of 270 miles. The Evija is also the most affordable electric sports car in the world, with a starting price of just \$110,000.

Formula One 2

AND THEY'RE OFF!

THE RACE
 The start of the season was a dramatic one, with Michael Schumacher taking pole position in his Ferrari. The race was a close one, with Schumacher leading the pack until a pit stop error cost him the lead. He finished second, behind the winner, who was also driving a Ferrari.

THE CHAMPION
 The 2000 season was a dominant one for Michael Schumacher. He won seven races and secured the championship with a record margin. His Ferrari team was also the most successful, winning the Constructors' Championship.

THE CHALLENGER
 Eddie Erwin was the main challenger to Schumacher's dominance. He won the 2001 season, driving for the British team. His victory was a surprise, as he had never won a race before. He finished the season with a record 107 laps completed.

THE FUTURE
 The sport is set to expand further, with new teams and drivers joining the grid. The 2002 season is expected to be a highly competitive one, with several new faces looking to challenge the established order.

On a major test, extraordinary results: every shell

The U.S. Navy's new *Excalibur* cruise missile is a game-changer. It's the first cruise missile to be able to hit a specific target with pinpoint accuracy. The missile is being tested at the Naval Air Station in Orlando, Florida. The tests are being conducted by the Naval Air Station's 4th Test Squadron. The tests are being conducted to determine the missile's accuracy and reliability. The tests are being conducted over a range of 100 to 1,000 miles. The tests are being conducted to determine the missile's ability to hit a target with an accuracy of 10 meters or better.
