As you may know, I was an associate of the late Dr. Fred Scherz and one of the people who worked with him on the development of the first computer-aided design program for the use of designers.

I have had a special interest in computer-aided design and design automation for a long time, and I have been particularly interested in the use of computers in the design of mechanical systems.

### Dear Dr. Lee,

I have been reading your book, "The Design of Mechanical Systems," and I am very interested in the design of mechanical systems.
